

Course Acronym:	BUS
Course Number:	165D
Descriptive Title:	Accounting Data Analytics
Division:	Business
Department:	Accounting
Course Disciplines:	Accounting
Catalog Description:	This course is an introduction to data analytics used in accounting. The course will provide students with basic skills to organize and analyze data used for important business and accounting decisions. Students will learn techniques for data preparation, data manipulation and statistical analysis using analysis tools such as Microsoft Excel, Microsoft Access, Structured Query Language (SQL) and Tableau.
Prerequisite:	BUS 150 with a minimum grade of C
Co-requisite:	
Recommended Preparation:	CIS 28
<b>Enrollment Limitation:</b>	
Hours Lecture (per week):	1.5
Hours Laboratory (per week):	1.5
Outside Study Hours:	3
Total Course Hours:	54
Course Units:	2
Grading Method:	Letter Grade and Pass/No Pass
Credit Status:	Credit, degree applicable
Transfer CSU:	yes
Effective Date:	11/15/2021
Transfer UC:	no
Effective Date:

Student Learning Outcomes:	<ul> <li>SLO #1 Introduction to Business and Accounting Data</li> <li>Describe how data are stored and organized in an accounting information system.</li> <li>SLO #2 Introduction to Data Analysis</li> </ul>
	Utilize data analysis tools such as Microsoft Excel, Microsoft Access, Structured Query Language (SQL) and Tableau to extract, transform and evaluate data. SLO #3 Concepts and Terminology
	Understand the concepts and terminology utilized in data analytics.
Course Objectives:	<ol> <li>Define data analytics.</li> <li>Explain potential accounting questions to be analyzed.</li> <li>Explain how data are used and stored in accounting</li> <li>Define relationships in a database.</li> <li>Extract and transform data from the accounting system.</li> <li>Perform vertical and horizontal analyses on financial statements.</li> <li>Calculate financial ratios.</li> <li>Evaluate the sales process.</li> <li>Evaluate the purchasing process.</li> <li>Utilize charts and pivot tables to communicate results of an analysis.</li> <li>Utilize other analysis tools to organize and present results of an analysis.</li> </ol>
Major Topics:	<ol> <li>Introduction to Data Analytics (4 hours, lecture)         <ul> <li>A. Data analytics defined</li> <li>B. Data analytics in accounting</li> <li>C. Data questions identified</li> </ul> </li> <li>Understanding Data (10 hours, lecture)         <ul> <li>A. How data are used and stored in accounting</li> <li>B. Relationships in a relational database</li> <li>C. Extracting and transforming data</li> </ul> </li> <li>Understanding Data (10 hours, lab)         <ul> <li>A. How data are used and stored in accounting</li> <li>B. Relationships in a relational database</li> <li>C. Extracting and transforming data</li> </ul> </li> <li>Understanding Data (10 hours, lab)         <ul> <li>A. How data are used and stored in accounting</li> <li>B. Relationships in a relational database</li> <li>C. Extracting and transforming data</li> </ul> </li> <li>Vi Financial Statement Analysis (4 hours, lecture)         <ul> <li>A. Horizontal analysis</li> <li>B. Vertical analysis</li> <li>C. Using ratios</li> </ul> </li> <li>V. Financial Statement Analysis (4 hours, lab)         <ul> <li>A. Horizontal analysis</li> <li>B. Vertical analysis</li> <li>C. Using ratios</li> </ul> </li> <li>V. Financial Statement Analysis (4 hours, lab)         <ul> <li>A. Horizontal analysis</li> <li>B. Vertical analysis</li> <li>C. Using ratios</li> </ul> </li> <li>VI. Evaluating Business Processes (4 hours, lecture)         <ul> <li>A. Sales</li> <li>B. Purchases</li> </ul> </li> </ol>

	<ul> <li>VII. Evaluating Business Processes (4 hours, lab) <ul> <li>A. Sales</li> <li>B. Purchases</li> </ul> </li> <li>VIII. Analyzing and Communicating the Results (5 hours, lecture) <ul> <li>A. Determine the purpose of your analysis</li> <li>B. Choose the right chart or program</li> <li>C. Using charts</li> <li>D. Using Excel pivot tables</li> <li>E. Using Tableau</li> </ul> </li> <li>IX. Analyzing and Communicating the Results (9 hours, lab) <ul> <li>A. Determine the purpose of your analysis</li> </ul> </li> </ul>
	<ul> <li>A. Determine the purpose of your analysis</li> <li>B. Choose the right chart or program</li> <li>C. Using charts</li> <li>D. Using Excel pivot tables</li> <li>E. Using Tableau</li> </ul>
Total Lecture Hours:	27
Total Laboratory Hours:	27
Total Hours:	54
Primary Method of Evaluation:	Skills demonstration
Typical Assignment Using Primary Method of Evaluation:	<ul> <li>Review the data file provided by your instructor and export it into a spreadsheet.</li> <li>Required: <ol> <li>Select three possible questions that could be asked by management about the data.</li> <li>Perform an analysis of the data to address each question.</li> <li>Use pivot tables and/or charts to communicate the results of your analysis.</li> </ol> </li> </ul>
Critical Thinking Assignment 1:	Consider the order-to-cash process or sales cycle. <b>Required:</b> Prepare a one-page paper discussing the types of questions that might be of concern to managers, financial accountants and auditors. Compare and explain why each would have different concerns.
Critical Thinking Assignment 2:	Consider the procure-to-pay process or purchasing cycle. Required: Prepare a one-page paper discussing the types of questions that might be of concern to managers, financial accountants and auditors. Compare and explain why each would have different concerns.
	Class Performance, Completion, Homework Problems, Laboratory Reports, Matching Items, Multiple Choice, Other Exams, Performance Exams, Quizzes, True/False
Instructional Methods:	Demonstration, Lab, Lecture

If other:	
Work Outside of Class:	Answer questions, Problem solving activity, Required reading, Skill practice, Written work (such as essay/composition/report/analysis/research)
If Other:
