

Course Acronym:	NURS
Course Number:	
	Advanced Medical-Surgical Nursing II Preceptorship
	Health Sciences and Athletics
Department:	Nursing
Course Disciplines:	
	This preceptorship course provides the nursing student enrolled in their last semester of nursing school, an opportunity to work directly with a RN preceptor. This experience allows students to apply knowledge and skills gained throughout the nursing program. The experience assists the student in making a smooth transition from the learner role to the entry-level registered nurses role in a realistic clinical setting. Opportunities to implement leadership and management skills as well as decision-making and priority- setting utilizing legal and ethical principles will be provided. Note: If there no preceptorship opportunity available, the student will be working directly with the course clinical instructor. Nursing 240 AND Nursing 242 AND Nursing 244 AND Nursing 247
	With a minimum grade of C in all prerequisites
Co-requisite:	
Recommended Preparation:	
Enrollment Limitation:	Students must be admitted into the Nursing Program
Hours Lecture (per week):	0
Hours Laboratory (per week):	6
Outside Study Hours:	0
Total Course Hours:	108
Course Units:	2
Grading Method:	Letter Grade only
Credit Status:	Credit, degree applicable

Transfer CSU:	Yes
Effective Date:	
Transfer UC:	Νο
Effective Date:	
General Education: ECC

•	SLO #1 Predictor Exam The student will pass the ATI Comprehensive Predictor Exam based Group National Means.
Course Objectives:	 SLO #2 Professional Portfolio The student will prepare a professional portfolio to be used for employment upon completion of the Associate Degree Nursing Program. SLO #3 Self-Evaluation The student will self-evaluate their clinical performance. Adapt practice to comply with othical logal and regulatory frameworks of pursing.
Course Objectives:	 Adapt practice to comply with ethical, legal and regulatory frameworks of nursing and the California Nursing Practice Act. Prioritize care based on patient acuity. Propose delegation of nursing care to licensed and unlicensed assistive personnel. Develop advanced clinical nursing skills. Maximize the use of technology in the clinical setting. Create written and verbal communication of relevant, accurate, and complete patient data in a concise and clear manner. Design a collaborative plan with patient, family, and members of the multi- disciplinary team to evaluate progress toward achievement of positive outcomes. Discuss patient's health status after completing a physical assessment including health history by utilizing the health and illness concepts. Achieve a passing score on the ATI Comprehensive Predictor Exam . Build a professional portfolio to share with potential employers.
Major Topics:	I. Healthcare Standards and Informatics (6 hours, lab)
	 A. Hospital policies B. Hospital care equipment C. Hospital orientation D. Computer access training

E. Clinical site orientation
II. Legal and Ethical Responsibilities in the Leadership Role (6 hours, lab)
A. Legal and wthical nursing principles
B. Leadership and management skills
III. Collaborative Role and Relationship With Health Care Team Members (15 hours, lab)
In. Conaborative Role and Relationship with health Care Team Members (15 hours, lab)
A. Physician
B. Nurses
C. Therapists
D. Pharmacists
E. Dietitians
F. Social Worker
G. Case Manager
H. Housekeeper
I. Unit Secretaries
J. Security
K. Volunteers
IV. Clinical Lab (One Patient) (10 hours, lab)
A. Provide direct patient care for one acutely ill patients
B. Admission
C. Discharge
D. Transferring of client to lower and higher level of care
E. Planning, prioritizing, implementing and evaluating client care
F. Participating in medical rounds
G. Health teaching and client advocacy
H. Health history and basic needs assessment.
I. Shift reporting and shift assessment
V. Clinical Lab (Two Patients) (20 hours, lab)
A. Provide direct patient care for two acutely ill patients
B. Admissions
C. Discharges
D. Transferring of clients to lower and higher level of care
E. Planning, prioritizing, implementing and evaluating client care
F. Participating in medical rounds
G. Health teaching and client advocacy
H. Health history and basic needs assessment
I. Shift reporting and shift assessment
VI. Clinical Lab (Three Patients) (51 hours, lab)
A. Provide direct patient care for two acutely ill patients
B. Admissions
C. Discharges
D. Transferring of clients to lower and higher level of care

	 E. Planning, prioritizing, implementing and evaluating client care F. Participating in medical rounds G. Health teaching and client advocacy H. Health history and basic needs assessment
Total Lecture Hours:	0
Total Laboratory Hours:	108
Total Hours:	108
Primary Method of Evaluation:	2) Problem solving demonstrations (computational or non-computational)
Using Primary Method	Provide verbal and computerized change of shift report to an oncoming registered nurse. The report should include pertinent laboratory results, diagnostic tests, changes in the client's condition, nursing intervention utilized, and evaluation of the patient outcomes during hospitalization.
-	Demonstrate critical thinking ability by completing a summative nursing program exam (Assessment Technologies Institute (ATI) RN Comprehensive Predictor) and successfully passing. When data is analyzed, develops a course of action to enhance the areas of knowledge that is/are deficient.
	Discuss four core measures and how they were successfully implemented at your institution. Use the patient information to demonstrate how the core measures were/were not met. Additionally, access the National Patient Safety Goals (NPSG) on the Joint Commission website. Choose three NPGSs and discuss how you personally upheld these NPGSs. Use the patient information to show how your interventions upheld these goals.
Other Evaluation Methods:	Class Performance, Other (specify)
Instructional Methods:	Lab, Other (specify)
If other:	ATI Exam Employment Portfolio
Work Outside of Class:	Course is lab only - minimum required hours satisfied by scheduled lab time
If Other:
