**Student Learning Outcomes:**

Student Learning Outcomes are based on the scope of work described in the learning objectives agreement. SLO statements and reports for this course may be obtained in the academic division office.

**Course Objectives:**

1. Analyze career opportunities in Computer Aided Design/Drafting and compare them to personal skills and career expectations.
2. Analyze how the process and content of Computer Aided Design/Drafting curriculum are relevant to the solution of practical problems on the job.
3. Compose work-based projects involving problem solving and the application of academic theory, skills and knowledge while undertaking new or expanded workplace responsibilities.
4. Employ new knowledge and job skills that contribute to occupational and/or educational Computer Aided Design/Drafting goals.

**Major Topics:**

I. Three new or expanded on-the-job measurable learning objectives beyond those experienced in previous employment or internships. These objectives will be developed by the student, instructor, and supervisor and will serve as part of the basis for determining the student's grade.

II. Semester project that enhances on-the-job learning experiences and is related to the student's career or educational goals.

III. PAID EMPLOYMENT Hours to be Arranged, lab

**Typical Assignment Using Primary Method of Evaluation:** Complete on-the-job measurable learning objectives that you have developed with your supervisor and that have been approved by the instructor. These learning objectives must include new or expanded skills or information that is directly related to your work or volunteer experience.

**Critical Thinking Assignment 1:**

Look at a problem you have encountered on the job, dissect it and think of possible solutions and/or improvements. Describe any potential problems or roadblocks. If you were in charge, what suggestions would you make to the person doing your job? Present your findings in a written essay. The length of this assignment will be determined by the instructor.

**Critical Thinking Assignment 2:**

Analyze your interactions at work. Describe ways in which you could develop personal habits or social skills that would help you to become a more desirable employee. How could you improve your communication with co-workers that would result in increased knowledge, new ideas, more productivity, better cooperation or smoother work flow? Present your findings in a written essay. The length of this assignment will be determined by the instructor.
