

SLO Meeting Minutes for Natural Sciences, 2-24-2022  
1:15-2:15pm, Zoom

Present: T. Noyes, M. Abbani, S. Kadakia, Z. Murdock

J. Noyes reminded faculty that the ALC would like courses identified as Gateway course are to be assessed in Canvas, if possible. If not, I need a short description of the assessment (why it would not work in Canvas).

J. Noyes reminded faculty that there is a new version of Nuventive, and this it is supposed to be easier to use. He has not explored it much, and has been told it is easier to use.

M. Abbani brought up difficulties accessing some of the items J. Noyes put in Google Drive. We found that J. Noyes needs to move one item from a folder in one Drive to a folder in another Drive.

J. Noyes and Z. Murdock discussed what the physics department needs to do to assess the physics SLOs this semester. Z. Murdock needs to inform his faculty which courses need to be assessed, and they need to start preparing to assess. Z. Murdock thinks they can develop SLOs that use Canvas for their Gateway courses.

N. Freeman reported via email on the status of the Biology SLO reports and courses to be assessed.
