

Natural Sciences
Division Council Meeting
Minutes
March 8, 2018

Present: J. Coroneus, M. Stupy, K. Villatoro, P. Doucette, P. Hacking, A. Grant

1. The Division Council examined the Planning requests for the 2018-2019 fiscal year. Each department's requests were discussed by a rep from the department. The Division Council then ranked the planning requests. These were tallied, and the results were released to Division Council members to disseminate to their departments.

The results were recorded in TracDat so that the wishes of the faculty would be represented in the planning process. The prioritizations will then be represented to the Council of Deans so that the College Plan can be formulated.
