Members of the Board of Trustees El Camino Community College District

The proposed 2017-18 Final Budget for the El Camino Community College District is submitted for your review and approval.

This budget reflects current information available from the California Community Colleges Chancellor's Office. State General Apportionment is projected to be funded at 19,642 FTES for 2017-18 as the District enters year 2 of a 3-year FTES Stabilization period. The District will add course sections throughout the year to attain enrollment management goals that will rebuild our FTES level. The State General Apportionment includes a \$2.9 million increase to the District's base apportionment revenue. There is a 1.56% COLA increase in the 2017-18 State budget. The 2017-18 projected ending balance is \$18.9 million. The Final Budget also includes reserves set aside for future liabilities, including substantial increases to STRS and PERS. Any necessary changes to the El Camino College budget will be brought to the Board of Trustees for consideration.

The proposed Final Budget will be made available for public inspection beginning August 22, 2017. An overview of the Unrestricted General Fund budget as well as all other fund budgets was presented to the Planning and Budgeting Committee (PBC) on August 17 and August 23. The Budget Workshop, Public hearing and Board adoption of the Final Budget is scheduled for September 5, 2017.

Respectfully submitted,

Dena Maloney

APPENDIX

APPROPRIATIONS LIMITATION

Article XIIIB of the State Constitution as approved by the voters in November 1979 requires the establishment of an Appropriation Limit on "Proceeds of Taxes" revenues for public agencies including school districts and community colleges, beginning with the 1980-81 fiscal year. Government Code 7910 places the responsibility for computing and adopting appropriations limits with the individual district.

G. C. 7910 (Chapter 1205, Statutes of 1980)

"Each year the governing body of each local jurisdiction shall, by resolution, establish its appropriations limit and make other necessary determinations for the following fiscal year pursuant to Article XIIIB at a regularly scheduled meeting or noticed special meeting. Fifteen days prior to the meeting documentation used in the determination of the appropriations limit and other necessary determinations shall be available to the public. The determinations made pursuant to this section are legislative acts..."

Based on historical data from 1978-79, adjusted by an inflation factor provided by the State, the El Camino Community College District adopted an Appropriations Limit for 1980-81 in the amount of \$36,674,634. Annually the District adjusts the approved limit by the change in the Consumer Price Index and by changes in the District's student population.

Once the Appropriations Limit has been adopted, the District must compare its appropriations which are subject to limitation to the established limit. Appropriations Subject to Limitations are those moneys which are proceeds of taxes. These moneys include tax receipts which are part of the beginning balance of the General Fund, State Apportionment income, tax receipts (state and local), receipts from the State Board Financial Assistance Program, and interest that has been generated on these moneys.

If Proceeds of Taxes subject to the Appropriations Limit will exceed the limit, disposition of excess revenues must be determined. The following options are available.

- a. Increase Appropriations Limit by adding excess revenues to the State limit, pursuant to Government Code Section 7902.1. The Department of Finance must be notified within 45 days if this option is chosen.
- b. Return excess revenues in the following years in accordance with Government Code Section 7911.
- c. Declare an emergency to exceed the current limit to cover the excess revenues. If this option is taken, districts must make one-time reductions in one or more of the following 3 years' Appropriations Limit by the amount of the excess revenues.
- d. Appropriate or reappropriate excess revenues to expenditures exempt from the Appropriations Limit. These exempt expenditures are debt service, unfunded court and federal mandates, mandates effective in 1978-79 whose cost increases have been greater than inflation and ADA adjustments used in computing the Appropriations Limit, and mandates effective since June 30, 1979.

APPROPRIATIONS LIMITATION continued

BASE REVENUE

On the basis of each district's "Full Time Equivalent Students" (FTES), the State of California "apportions" or distributes part of the State School Fund to the 72 community college districts in the State. This apportionment, designated as the district's Total Available General Revenue is received from three sources:

Enrollment Fees
Property Tax Moneys
State General Apportionment

The amount of enrollment fees and property taxes estimated to be received by the District is subtracted from the total apportionment calculated by the State. The balance remaining is the amount of state general apportionment that the district will receive during the fiscal year. If enrollment fees or property taxes received are higher than originally estimated, the State reduces that district's apportionment correspondingly.

New legislation, SB 361, was introduced in 2006 that changed the funding formula for community college districts beginning with the 2006-07 year. The total allocation to each district is computed on the basis of three factors:

Foundation Revenues; Credit FTES Revenues; Non-Credit FTES Revenues.

Foundation revenue is a dollar amount allocated to districts based on the number and the size of colleges and centers for each district. El Camino Community College District through its partnership agreement with the Compton Community Educational Center was allocated \$8 million for foundation revenue in 2006-07.

SB361 calculated a 90th percentile equalization credit FTES target rate of \$3,955, which was derived using 2005-06 base data. The target rate is increased each year by a statewide inflation adjustment factor (COLA). The 2017-18 base funding rates are \$5072 for Credit FTES and \$3050 for Non-credit FTES. The 2017-18 COLA rate is determined by the State and for budget purposes is estimated to be 1.56%. It is also anticipated there will be a 2.78% increase for Base apportionment revenue.

The District's base revenue for 2017-18 has been calculated by the state at the 2016-17 level. The State's Base Revenue for 2017-18 was computed based on 17,865 credit FTES and 28 non-credit FTES. The District has a goal of 17,923 funded FTES for 2017-18. More certain funding information will be available at the time of the First Principle Apportionment Report in late February 2018.

The 2017-18 base credit FTES revenue is computed by multiplying the District's estimated funded base FTES of 17,865 by the 2017-18 funding rate of \$5072

The 2017-18 base non-credit revenue is computed by multiplying the District's estimated funded base non-credit FTES of 28 by the 2017-18 funding rate of \$3050.

Budget Development Criteria

The 2017-18 budget will reflect the goals identified in the El Camino College 2016-21 Strategic Plan.

Costs for operational necessities such as utilities, insurance, regular payroll (including step and column advancement and other negotiable items) will be budgeted and funded prior to identifying moneys for priorities developed through the planning process.

Requests are based on needs assessment and/or program review. An augmentation is a one-time addition to the current year budget. An enhancement is an increase to the base budget. Priorities may also be accomplished by redirecting existing funds.

Budget augmentations will be funded using one or more of the following guidelines:

- 1. Maintain current level of revenue produced for the District, I.E., achieving FTES target, outreach activities, grant development.
- 2. Directly impacting institutional effectiveness outcomes.
- 3. Maintain the integrity of a program.
- 4. Fulfill legal mandate requirements.
- 5. Recognize District employees as valued professionals.

COMPLIANCE WITH 50% LAW

Education Code Section 84362 requires community college districts to expend 50% of the district's current expense of education for the payment of salaries of classroom instructors.

<u>Current Expense of Education (CEE)</u> includes the General Fund operating expenditures excluding expenditures for food services, community services, object classifications 6000 (except equipment replacement) and 7000, and other costs specified in law and regulations.

<u>Salaries of Classroom Instructors</u> include the salary and related benefits for classroom instructors and instructional aides.

The following table recaps the district's compliance with the law for fiscal years 1991-92 through 2016-2017.

FULL-TIME FACULTY OBLIGATION

Assembly Bill 1725 (Statutes of 1988, Education Code Section 87482.6) and implementing regulations (California Code of Regulations, Title 5, Sections 52015 and 53300, et seq.) established a goal for percentage of hours of credit instruction to be taught by full-time instructors at 75%. During the 1997 year, the Consultation Council proposed a revision to the regulations to include non-instructional faculty* as part of this goal. Regulations to incorporate this revision were adopted by the Board of Governors. If the obligation is not met, the apportionment will be reduced by the statewide average of faculty replacement cost for each position below the obligation number.

LOTTERY

On November 6, 1984, Proposition 37 was passed establishing the California State Lottery. Community college districts receive, on a quarterly basis, a proportional share of the lottery revenues based on average Full-Time Equivalent Students (FTES). For distribution purposes, allocations are initially made using the prior year annual FTES figures, including non-resident students, as reported to the Chancellor's Office. When current year FTES figures are available, generally in the following fiscal year, an adjustment is made to reflect any under/overpayments.

POST EMPLOYMENT BENEFITS FUND

Financial Accounting Standard 106 and GASB 45 recommend that employers establish a fund to pay for the future costs of retiree medical premiums. Actuarial valuations performed in 1995, 2005, 2009 and 2012 identified El Camino's obligation at January 1, 1994, to be \$7,438,000; at June 1, 2005,to be \$15,053,009; at June 30, 2009 to be \$18,814,878; at May 9, 2012 to be \$22,355,715: at October 1, 2013 to be \$22,214,690 and at May 1, 2015 to be \$20,598,897. 2017-18 FINAL BUDGET ASSUMPTIONS

Final Budget Assumptions Board of Trustees September 5, 2017

UNRESTRICTED GENERAL FUND

The following significant assumptions are recognized in the 2017 -18 Final Budget.

Fund Balances

- 1. The June 30, 2017 uncommitted ending balance is \$21.6 million for a 17.28% reserve.
- 2. The 2017-18 uncommitted ending balance at June 30, 2018 is projected to be \$18.9 million for a 13.30 % reserve. The 2017-18 budget reflects \$2.6 million of deficit budgeting to maintain College operations and services.

Revenue & Incoming Transfers

The proposed Final Budget reflects the information available at this time from the California Community College System Office. Updates are expected from the State throughout the year. If additional major adjustments are required they will be submitted to the Board of Trustees for approval.

- 1. State revenue projections for 2017-18 were formulated as follows:
 - a. 1.56% COLA has been applied to State revenues for 2017-18.
 - b. The Foundation Base Revenue allocation and the Basic FTES (workload) Revenue is expected to increase by \$1.54 million.
 - c. The District's Budget is based on the 2016-17 actual FTES of 17,893 due to the District going into Stabilization.
 - d. This formula provides for State calculated Total Available General Revenue of \$112,312,308 for fiscal year 2017-18.
- 2. Lottery funds are based on a funding rate of \$146 per FTES.
- 3. The projected revenue for 2017-18 includes the following unusual or one-time revenue amount:
 - a. Mandated Cost Claims funding of \$546,280 (\$28 per FTES). This revenue source is expected to continue in future fiscal years.

Appropriations:

- 1. Salary Range and Step increases have been included in the budget.
- 2. STRS and PERS employer contributions rates are budgeted at 14.43 % and 15.531% respectively.

- 3. Classified Salaries and Benefits appropriations include the costs of the Compton Educational Center Police Department (\$1,600,000). These costs are offset by corresponding revenue received from Compton College.
- 4. Contract Services includes the College's Paramedic and Fire Academy program expense for faculty instruction.
 - a. These amounts are budgeted as contracts for personal services (#5100); then
 - b. The final salary related amounts of these contracts are transferred to the full time faculty salary expenditure accounts (#1100) at the end of the fiscal year to comply with the 50% law calculation.
- 5. State Principal Apportionment includes \$4.8 million to reflect the Compton College responsibilities assumed by El Camino College District's partnership obligations:
 - a. El Camino CCD currently appropriates \$1.2 Million (Fund 14) of this allocation for Compton College related activities. (See page 74 for a list of allocations).
 - b. \$3.6 million (Fund 15) is included in the Interfund Transfers Out (#7300) and will be funding Student Retention Programs, Enrollment Management efforts, Safety programs and library and equipment expenditures. (See page 75 for a list of allocations).
- 6. Interfund transfers (#7300) totaling \$22,118,657 from the General Fund Unrestricted include support to other District funds to support insurance premiums and to support the ongoing needs of the District's specially funded programs. See page 59 for a list of Interfund Transfers.

 Major transfers include:
 - a. \$1,163,564 apportionment Compton College related expenses (Fund 14)
 - b. \$3,649,851 apportionment Special Programs/Services (Fund 15)
 - c. Dental Premium \$1,000,000 (Fund 63)
 - d. Parking Citation revenue \$275,000 (Fund 12)
 - e. Police Department \$850,000 (Fund 12)
 - f. Auxiliary Services \$25,000 (Fund 79)
 - g. Workers' Compensation \$100,000 (Fund 61)
 - h. Property & Liability \$100,000 (Fund 62)
 - i. STRS/PERS Future Liabilities \$14,955,242 (Fund 16)
- 7. The Unrestricted General Fund budget does not include a transfer of funds for the Government Accounting Standards Board (GASB) 45 Post-Employment Benefits Fund reserve. The district was able to fully fund its post-employment benefits liability during 2014-15. Future retiree benefit costs will be funded from the Post-Employment Benefits Irrevocable Trust Fund (Fund 69).

RESTRICTED/CATEGORICAL FUNDS

The State has restored or partially restored funding for several categorical programs. A major program only partially restored by the State is the Disabled Students Programs and Services (DSP&S). The District will continue to backfill that program through the Special Programs Fund. (Fund 15).

The State has increased funding for the Student Success and Support Program, the Strong Workforce program and CTE Pathways funds for the 2016-17 fiscal year. Additional funding has been made available for the Basic Skills, CalWORKs, MESA and Puente programs. The State has provided for Physical Plant and Instructional Support allocations for 2017-18.

SUMMARY

The proposed Final Budget also reflects the collegial and consultative efforts of the Planning and Budget Committee, division deans and department staff to develop a strategic and meaningful financial plan for 2017-18. As a "living" document, it represents a starting point that will be referenced, adjusted and evaluated throughout the fiscal year. It is, with all available information reviewed and all input weighed and presented in the form of budget assumptions, presented as a financial record of the college district's financial and operational plan for 2017-18.

GLOSSARY

GLOSSARY OF FINANCE TERMS

This glossary is an attempt to explain community college finance terminology in language which makes sense to the general public. Most of the terms included have appeared in the text of this report. A few additional terms have been included which come up frequently in discussions of college budgets, revenues, and expenditures.

ACCOUNTING - The process of identifying, measuring, and communicating financial information to permit informed judgments and decisions by users.

ALLOCATION - Division or distribution of resources according to a predetermined plan.

ALTERNATIVE RETIREMENT PLAN (ARP) – An option to the STRS and PERS plans available to employees taking a part-time certificated teaching or management position.

APPORTIONMENT - Federal or State taxes distributed to college districts or other governmental units according to certain formulas.

APPROPRIATION - An allocation of funds made by a legislative or governing body for a specified time and purpose.

APPROPRIATION FOR CONTINGENCIES - That portion of the current fiscal year's budget that is not appropriated for any specific purpose but is held subject to intrabudget transfer; i.e., transfer to other specific appropriations as needed during the fiscal year.

ASSESSED VALUE - The value of land, homes, or businesses set by the county assessor for property tax purposes. Assessed value is either the appraised value of any newly built or purchased property or the value on March 1, 1975, of continuously owned property, plus an annual increase. This increased is tied to the California Consumer Price Index but may not exceed 2%.

AUGMENTATIONS - Augmentation requests should be based on needs assessment and/or program review. An augmentation is a one-time addition to the current year budget.

AUXILIARY OPERATIONS - Supportive services and/or specialized programs for the general benefit of the college. The governing board of a community college district may establish auxiliary organizations for the purpose of providing supportive services and specialized programs for the general benefit of its college. Education Code Section 72670 provides examples of entities that may be considered as auxiliary organizations.

AVERAGE DAILY ATTENDANCE (ADA) - The student workload unit formerly used as the basis for computation of State support for California Community Colleges. An ADA represents 525 class (contact) hours of student instruction/activity. The term ADA has been replaced by Full-Time Equivalent Student (FTES).

BASE FUNDING - Under current financing legislation, each district has a base amount of combined property taxes, enrollment fees, and apportionment which the State will fund during any fiscal year. This base is equivalent to the prior year's income if the district earned all the FTES it was allowed under its "cap". When enrollment declines, the following year's base is reduced.

BASE REVENUE - The district's total prior year revenue from state general apportionments, local property tax revenue, and student enrollment fees, adjusted when applicable for projected deficits.

BASE YEAR - A year to which reference is made when projecting a current condition.

BLOCK GRANT - A fixed sum of money, not linked to enrollment/FTES measures.

BOGW - BOARD OF GOVERNORS Enrollment Fee Waiver - A waiver of enrollment fees available to California residents who apply through the Financial Aid Office and meet various qualification criteria.

BOARD OF GOVERNORS – The statewide governing board of the community colleges. The members are appointed by the Governor. The Board hires the chancellor of the California Community Colleges and makes policy decisions that affect all districts. The Board may be directed by the legislature to regulate certain matters and it may choose to regulate others.

BOARD OF TRUSTEES - The local governing board of each community college district. Its members are elected from the service area. The board hires the chief administrator of the district and directs the operations of the district. It makes policy decisions that are permitted or mandated at the local level.

BOND - A means of long-term debt financing. See General Obligation Bond.

BOOKSTORE FUND - The fund designated to receive the proceeds derived from the district's operation of a community college bookstore (Education Code Section 81676). All necessary expenses, including salaries, wages, and cost of capital improvements for the bookstore may be paid from generated revenue.

GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB) 45 – GASB 45 requires that non-pension benefits for retirees, such as retire health care, be shown as an accrued liability on the budget, similar to pension benefits. Rather than using pay-as-you-go for retiree benefits.

GASB 45 requires an estimate of the future value of such benefits for its retirees and then calculates an actuarially-derived yearly expense to be shown on its budget. While GASB 45 requires only accrued accounting of retiree benefits, failure to then fund the calculated annual liability may have additional audit and credit consequences.

PROPERTY TAXES - As described under "Apportionment", property taxes paid by district owners of residential and commercial property are a major source of funds for community colleges. For some years the State has adjusted apportionment to reflect actual property tax payments, so the total available to the colleges does not change as property tax payments rise or fall, but the State contributes more or less of the district's revenues from general revenues.

This fund is maintained in the County treasury and used to provide for payments on deductible types of insurance policies and on losses or payments due to non-insured perils.

The funds account for all activities of the self-insurance program and are operated as Internal Service Funds using accounting principles applicable to insurance companies. In accordance with internal service funds accounting, the self-insurance funds charge other funds for their proportionate share of the estimated claims and expenses incurred, plus contingencies, and reflect the receipt of money as revenue.

Separate self-insurance funds may be established for each type of self-insurance or deductible activity (e.g., Workers' Compensation Self-Insurance Fund, Health Self-Insurance Fund, etc.); however, these separate funds may be consolidated into one self-insurance fund for state reporting purposes.

The balances of the self-insurance funds are restricted and cannot be considered part of the working cash available to other funds in the district.
