EL CAMINO COLLEGE STRATEGIC PLAN 2004-2007

Vision Statement

El Camino College will be the College of choice for successful student learning, caring student services and open access. We, the employees, will work together to create an environment that emphasizes people, respect, integrity, diversity and excellence. Our College will be a leader in demonstrating accountability to our community.

Mission Statement

The mission of El Camino College is to meet the educational needs of its diverse community and ensure student success by offering quality, comprehensive educational opportunities.

Statement of Philosophy

Everything El Camino College is or does must be centered on its community, for without the community, we have no students, no faculty or staff, no reason to exist. It is our community that saw the need and valued the reason for the creation of El Camino College. Therefore, it is to our community that we must be responsible and responsive in all matters educational, fiscal and social.

Statement of Values

Our highest value is placed on our students and their educational goals. Interwoven in that value is our recognition that the faculty and staff of El Camino College are the College's stability, its source of strength and its driving force. With this in mind, our five core values are:

People – We strive to balance the needs of our students, employees and community.

Respect – We work in a spirit of cooperation and collaboration.

Integrity – We act ethically and honestly toward our students, colleagues and community.

Diversity – We recognize and appreciate our similarities and differences.

Excellence – We aspire to deliver quality and excellence in all we do.

Guiding Principles

The following guiding principles are used to direct the efforts of the District:

El Camino College must strive for distinction in everything the College does—in the classroom, in services and in human relations. Respect for our students, our fellow employees, our community and ourselves, must be our underlying goal.

Cooperation among our many partners is vital for our success—whether they be other schools and colleges, businesses and industries, or individuals.

Access and opportunity must never be compromised. Our classrooms are open to everyone who meets our admission eligibility and our community programs are open to all. This policy is enforced without discrimination and without regard to gender, ethnicity, personal beliefs, abilities or background.

Strategic Goals 2004-2007

- 1. Support and constantly improve the quality of our educational offerings.
- 2. Promote student-centered learning to increase student success.
- 3. Support innovative practices that enhance the educational experience.
- 4. Foster a climate that promotes integrity and accountability.
- 5. Support and develop effective and motivated employees.
- 6. Improve and enhance internal and external communication.
- 7. Incorporate flexibility into institutional structure and process.

Procedures for implementing the policy will be developed with collegial consultation with the Academic Senate, as defined in CCR Title 5, Section 53200. This policy supersedes the section of BP 6130 dealing with Academic Renewal.

A. CITIZENS' BOND OVERSIGHT COMMITTEE

The next meeting of the Citizens' Bond Oversight Committee is scheduled for Wednesday, May 24, in the Board Room. The group will meet at 2 p.m. for a campus tour, followed by the meeting, which will begin at 3 p.m.

B. PROJECT BUDGETS

The Facilities Needs Report prepared May 2002, established preliminary budgets for the renovation or replacement of the buildings reported in the categories identified below. The Needs Report was the basis for determining the amount of bond funding required to complete the facilities upgrade/modernization program. The preliminary budgets were revised February 17, 2004, when project scopes and timelines were further defined. Budgets were also revised as of May 16, 2005. Also included in the needs report was a listing compiled by division of equipment and technology that needed to be replaced or upgraded.

The following table reports expenditures through April, 2006.

¹ This amount is now included in the Construction amount.

² This amount is now included in the Construction amount.

The bids amounts confirm the project budget is inadequate to support the project and requires an augmentation of \$7,179,509. There are two primary reasons for the increase, escalation of construction costs and an expansion of the project's scope. Construction costs have increased dramatically from January 2004, when the project budget was prepared, to the present time. High demand and limited supply have caused the price of construction materials to skyrocket. There is also a tremendous amount of construction work being performed in the Southern California region, allowing contractors to price their work at a premium. The scope of this project increased due to two decisions. The first decision was to increase the width of the building corridors beyond the building code minimum. The building code minimum was judged to be too narrow for comfortable circulation. The second decision increasing project scope was to add an additional elevator beyond the building code minimum. The elevator was added to provide enhanced accessibility for the building users.

⁴ The Humanities Complex Replacement Project's total budget is \$23,120,064. Of that amount \$1,595,329 is for the future demolition of the remaining west portion of the Humanities complex and landscaping of that area.
