SISC Presentation

Armando Cabrera, SISC Account Manager, presented to the committee. The presentation included an overview of the SISC program. SISC is a public entity company not for profit. SISC stands for Self-Insured Schools of California. He explained how new member districts receive the same renewal range as those who are already in the pool. The stability and low costs are the main reasons why schools join and stay in SISC. The SISC renewals have been single digits for the past six years. The presentation included a list of all Southern California member districts. He referred to Mt. San Antonio Community College recently joining SISC, effective January 1, 2020.

Each District/Bargaining Unit may offer up to 6 medical plan options, plus a Bronze plan. Retirees under age 65 (without Medicare) are permitted to enroll in the same plan options offered to active employees.

SISC also offers many value-add services at no additional cost. One of the value-add services Armando discussed was the Expert Medical Opinion Benefit. This program offers members a second opinion on their medical diagnosis. These opinions are from world class physicians. SISC has found this program to be valuable by their members. Customer service is very important to SISC and the presentation included a few customer service testimonials.

Armando also reviewed the benefit plan options offered by SISC. Walgreens is not in the SISC prescription network. SISC plans use the American Specialty Health (ASH) network for their chiropractic and acupuncture plan riders.

The committee would like Armando to speak to all College bargaining units to educate them on the SISC program. The plan is to have four upcoming open forums for employees to attend.
