Homeless Students

Robin Dreizler had mentioned to Chief Trevis that there was a proposal for a county grant that would allow the homeless to park on campus, however it did not pass. The grant did not address restroom facilities or other services that needed to be provided. If the grant was awarded, it would not only be for students and would be open to anybody. Robin needed more guarantee that the grant would specifically assist students. Currently there is no designated space on campus for homeless students living in their cars. The issue may be revisited.
