**NEW BUSINESS**

*Dutch Door Request for Professional Development*

Lisa Mednick is concerned with safety and security in her office. She would like a dutch door installed to control the flow of people wandering in and out. There might be assembly bill and ADA concerns. Chris will look into the particulars for the next meeting.

*Future Traffic Construction*

The City of Gardena will be doing asphalt work on the east side of Crenshaw Boulevard in front of campus. It is expected to be completed before the start of spring semester.

The County has a big project scheduled to begin in the next couple of years to work on the bridge that crosses over Redondo Beach Boulevard. The bridge and possibly the foundation are deteriorating. Certain areas on campus located near the bridge, will also be affected.

The trimming and/or removal of trees on and around the perimeter of campus was discussed. Facilities is working with the County as well as managing feedback from the community.

Meeting adjourned at 3:01 pm

*Post Meeting Discussion*

Gary spoke about the plans for the football game this weekend. Chris will try to get as many updates as he can from civic center for the next meeting. There will be a commercial shoot on Sunday morning but the biggest events coming up are the CIF track finals on May 11<sup>th</sup> & 18<sup>th</sup> and Mt. Sac relays.

Completion of the administration building is still a ways away. The goal for the student services building is April but it's unlikely to happen by then.
