Spring 2023 Enrollment – Seats Filled and Unfilled
Fall 2023 Scheduling

Scheduling Priority: Improve fill rates while maximizing student access to general education and major's courses in a strategically selected variety of modalities that reflect enrollment patterns and shifting student demand since the return to campus.

Goals/Factors
1. Strategically schedule fewer on campus sections, so we don't have multiple sections of a course with very low enrollment yet we still maintain a variety of on campus options for students (Spring 2023 BSS on campus fill rate 54%).
2. Maintain online sections (Spring 2023 BSS online fill rate 87%).
3. Avoid scheduling overlapping sections of a course or courses required for a major.
4. Modest demand for on campus and hybrid classes will support the expectation that faculty be teaching on campus 2 days a week in Fall 2023. In Spring 2024, it is possible that will increase to 3 instructional days a week on campus.
5. All classes must comply with the block schedule.
